

AgTech Founders field tour to Moree

20th – 26th September 2019

There are many Agtech products that don't quite meet farmers needs. Connecting you as an Agtech founder with farmers ensures the products and services you are developing will align directly with end user's needs.

Moree is home to various agricultural industries with significant innovators looking for next level technology.

This field tour will deliver context around the agricultural landscape and provide networking opportunities for commercial partnerships with both farmers and agribusinesses.

Events are free, thanks to support from our sponsors

Things to do

Our mineral rich artesian water is naturally 45oC. MAAC is an awesome facility to take a soak in natural artesian water.

Bank Art Museum Moree is always showcasing a national or international artists.

Moree has some beautiful boutiques showcasing fashion, gourmet food & homewares.

Mobile phone: there are patches of good Vodaphone & Optus service, particularly in town however, Telstra do have the largest and most reliable mobile reception.
